How to Use LUMIGAN RC

Usual dose of LUMIGAN RC

Use it once a day,
in the evenings

If a night is missed, give one drop as soon as you remember, then go back to their regular routine. Do not give two doses.

Apply one drop in the
affected eye(s)

Remember to remove
contact lenses before
applying.

Wait at least
5 minutes before
using other eye drops

If using multiple
medications, make sure
you know when and how to
give each one.

Remember that LUMIGAN RC should be taken once a day, every day.
The doctor will monitor the patient's condition regularly.

**Look at LumiganRC.ca for more
information and support**

LUMIGAN RC should always be used exactly as a healthcare professional has instructed. Refer to the Patient Information leaflet included with the medication for complete product information.
